Professional Summary

I'm Front-End Developer and skilled React.js, Angular, Javascript, Vue.js, Python, etc. I always like coding and try to learn new skills. I started developing after I graduated from university. Recently I am actively participating in Full-Stack development.

Work Experience

09/2019 - 06/2020
Petrochemical Yingke Information Technology Co., Ltd.
Senior Web Developer

I'm developing the ordering tasks from this company.
I'm trying to become a Full-Stack Developer, so I'm learning about Back-End Side.

02/2018 - 09/2019
eFarmer B.V.
Frontend Developer

I learned the many technologies to become a Expert Front-End Developer and developed ordering web site tasks.

06/2017 - 01/2018
Dinamicka Development
Frontend Developer

While that time, I learned the many technologies to become a Good Front-End Developer and I developed some ordering tasks.

02/2016 - 05/2017
SoftServe
Intermediate Software Developer/Junior Software Developer/Trainee Software Developer

I was an internship for 1 years 4 months.
While that time, I learned the basic skills to become a web developer. Especially, I liked the Front-End side.
